Tools & Data Platforms:	Ticketing & Moderation Consoles, MS Excel (VLOOKUP, Pivot Tables, Error Tracking), Google Workspace, Python Automation Scripts, AI Dataset Quality Annotation.

INTERNSHIPS & PRACTICAL FIELD EXPOSURE

Operations & AI Content Verification Intern — Instawork Services India Pvt. Ltd. 2025 | Bengaluru, India

- Reviewed and audited hundreds of multimodal user submissions daily against strict platform safety and content quality guidelines.
- Maintained a verified **99.4% accuracy benchmark** across high-speed review queues, identifying and removing non-compliant content.
- Demonstrated emotional resilience and focus while reviewing complex, subjective, and edge-case material without policy drift.
- Identified recurring misclassification trends and partnered with team leads to clarify guidelines, reducing review cycle time by **12%**.

Community Operations & Query Resolution Intern — Non-Profit Social Initiative 2024 | Bengaluru, India

- Managed non-voice communication channels, resolving queries and clarifying event protocols for 500+ diverse participants.
- De-escalated participant concerns and logistical bottlenecks under tight deadlines, maintaining high satisfaction ratings.

Commercial Operations Intern — Pencil Mark Interior Solutions LLP July 2024 – Aug 2025 | Bengaluru, India

- Audited project scopes of work and commercial deliverables against client contract terms, ensuring 100% policy compliance.
- Maintained documentation integrity in shared databases, eliminating billing mismatches through systematic cross-checks.

Exhibition Operations & Safety Lead — Salt in My Cocoa (Aero India 2025) Feb 2025 | Yelahanka Air Force Station, Bengaluru

- Enforced strict safety protocols, visitor queue flow, and dual-custody stock controls for 100,000+ visitors at a high-security defense expo.
- Maintained complete operational discipline during crowd surges, achieving **0% stock shrinkage** and zero security non-conformances.

TECHNICAL PROJECT & OPERATIONS AUTOMATION

Autonomous Operations & Workday Pipeline Engine — Student Automation Project 2026 | Python, SQLite, Workday API

- Architected an automated operational dispatcher in Python parsing 430+ enterprise job requisitions with 16/16 unit tests passing green.
- Built automated candidate-to-requisition taxonomy matching, validating skill keywords against Workday job descriptions with zero manual overhead.
