Tools & Quantitative Modeling:	MS Excel (VLOOKUP, Pivot Tables, SUMIFS, Inventory Turnover Calculations), Google Workspace, Python Process Scripts, Logistics Exception Tracking.

INTERNSHIPS & PRACTICAL FIELD EXPOSURE

Exhibition Operations & Logistics Lead — Salt in My Cocoa (Aero India 2025) Feb 2025 | Yelahanka Air Force Station, Bengaluru

- Orchestrated end-to-end supply chain fulfillment, warehouse dispatch, and delivery intake at Asia's premier defense aviation expo (100,000+ visitors).
- Pioneered a dual-custody physical inventory tracking protocol that maintained 100% stock availability and achieved **0% shrinkage** across 5 consecutive peak days.
- Streamlined daily replenishment logistics schedules under stringent defense-sector security checkpoints and restricted dispatch windows.

Commercial Operations Intern — Pencil Mark Interior Solutions LLP July 2024 – Aug 2025 | Bengaluru, India

- Managed B2B purchase order life cycles, tracking materials from supplier dispatch to on-site delivery sign-offs against agreed contractual milestones.
- Audited supplier packing slips against purchase orders to eliminate quantity mismatches and damaged goods claims prior to installation.
- Prepared commercial proposals and comparative cost estimation sheets in MS Excel, assisting leadership in closing **INR 1.5L+** in corporate contracts.

Operations & Data Verification Intern — Instawork Services India Pvt. Ltd. 2025 | Bengaluru, India

- Validated incoming logistics and partner fulfillment records, verifying order completion data points against strict operational SOPs.
- Maintained **99.4% accuracy** across high-volume verification queues, preventing system processing errors downstream.
- Identified repetitive bottlenecks in manual document validation, collaborating with leads to decrease cycle time by **12%**.

Community Operations & Compliance Intern — Non-Profit Social Initiative 2024 | Bengaluru, India

- Supervised field resource allocations, participant registrations, and supply distributions across municipal community venues.
- Maintained inventory tracking rosters in Google Sheets, ensuring full material accounting and on-time distribution.

TECHNICAL PROJECT & OPERATIONS AUTOMATION

Autonomous Operations & Workday Pipeline Engine — Student Automation Project 2026 | Python, SQLite, Workday API

- Architected an automated operational dispatcher in Python parsing 430+ enterprise job requisitions with 16/16 unit tests passing green.
- Built automated candidate-to-requisition taxonomy matching, validating skill keywords against Workday job descriptions with zero manual overhead.
