To the Hiring Team & University Recruiting,
Tesla
Re: Application for Data Analyst Intern - People Products (Palo Alto, CA / Austin, TX)

Dear Hiring Team at Tesla,

I am writing to express my strong interest in the Data Analyst Intern - People Products internship at Tesla. Having tracked your work across Autonomous Vehicles & Energy Systems, I am excited to contribute my operational leadership, data analytics discipline, and problem-solving rigor to your team.

My verified track record includes directing mission-critical ground logistics for 450+ international delegates at Aero India 2025, managing brand activation supply chains for Puma Sports India with 25% reduced turnaround friction, and achieving a 99%+ accuracy rating on Instawork's AI evaluation platform.

Deliver real-time analytics, automated workforce forecasting models, and workflow tooling across Tesla's engineering and operations organization.

I am prepared to hit the ground running from Day 1 to deliver measurable impact. Thank you for your consideration.

Sincerely,

Aditya Mehra
BBA International Business (DSU 2026)
