To the Hiring Team & University Recruiting,
Rivian
Re: Application for Supply Chain Data, AI & Business Intelligence Co-op Intern (Normal, IL / Palo Alto, CA)

Dear Hiring Team at Rivian,

I am writing to express my strong interest in the Supply Chain Data, AI & Business Intelligence Co-op Intern internship at Rivian. Having tracked your work across Electric Vehicles & Clean Mobility, I am excited to contribute my operational leadership, data analytics discipline, and problem-solving rigor to your team.

My verified track record includes directing mission-critical ground logistics for 450+ international delegates at Aero India 2025, managing brand activation supply chains for Puma Sports India with 25% reduced turnaround friction, and achieving a 99%+ accuracy rating on Instawork's AI evaluation platform.

Build predictive lead-time trackers, multi-tier supplier disruption monitors, and automated cost variance models for assembly lines.

I am prepared to hit the ground running from Day 1 to deliver measurable impact. Thank you for your consideration.

Sincerely,

Aditya Mehra
BBA International Business (DSU 2026)
