To the Hiring Team & University Recruiting,
AMD (Advanced Micro Devices)
Re: Application for Global Supply Chain & Semiconductor Operations Analyst Intern (Austin, TX / Santa Clara, CA)

Dear Hiring Team at AMD (Advanced Micro Devices),

I am writing to express my strong interest in the Global Supply Chain & Semiconductor Operations Analyst Intern internship at AMD (Advanced Micro Devices). Having tracked your work across Semiconductors & High-Performance Computing, I am excited to contribute my operational leadership, data analytics discipline, and problem-solving rigor to your team.

My verified track record includes directing mission-critical ground logistics for 450+ international delegates at Aero India 2025, managing brand activation supply chains for Puma Sports India with 25% reduced turnaround friction, and achieving a 99%+ accuracy rating on Instawork's AI evaluation platform.

Model fab allocation forecasts, wafer inventory buffers, substrate delivery tracking, and supplier risk metrics across AI accelerator product lines.

I am prepared to hit the ground running from Day 1 to deliver measurable impact. Thank you for your consideration.

Sincerely,

Aditya Mehra
BBA International Business (DSU 2026)
