CAREER OBJECTIVE

Dedicated BBA graduate in International Business with hands-on experience across client outreach, operational coordination, and modern AI productivity workflows. Quick learner with strong computer proficiency, eager to support cross-functional teams in daily operations, customer service, vendor communication, and business administration.

WORK EXPERIENCE & INTERNSHIPS

- **Business Development Intern | Pencil Mark Solutions:** Conducted targeted outreach to prospective corporate clients via phone and email to introduce commercial interior design services.
- Assisted senior management with preparing service proposals, cost estimates, client meeting presentations, and follow-up schedules.
- **Operations Intern | Instawork Services India:** Organized, structured, and verified computer datasets to support engineering teams with robotics and AI operations.
- Maintained strict data accuracy standards by cross-checking spreadsheets and reporting workflow discrepancies promptly.
- **Stall Coordinator | AERO India Exhibition:** Managed exhibition booth setup, welcomed trade delegates and international visitors, answered inquiries, and maintained inventory control.
- Monitored promotional merchandise and product catalogues to ensure continuous availability throughout the multi-day event.
- **Event Coordinator | College & Music Events:** Coordinated with technical vendors for stage, sound, and lighting setups while managing hospitality and travel logistics for performing artists.
- Supervised on-ground event volunteers and maintained strict schedules to ensure seamless show operations and crowd management.
- **Store Assistant | Family Retail Store:** Managed daily counter sales, customer billing, cash registers, and supplier restocking to maintain seamless store operations.
- Communicated regularly with wholesale distributors to place repeat merchandise orders and verify incoming delivery receipts.

PROJECTS & AI PROOF OF WORK

- **Web Apps & Digital Portfolio (adi-digital-universe.ai.studio):** Built and deployed interactive web applications and a personal portfolio website using modern AI coding workflows and cloud hosting.
- Maintained active public GitHub repositories showcasing code implementations, interface prototypes, and practical automation scripts.
- **AI Multimedia & Content Production:** Produced promotional video assets, visual marketing collateral, and digital presentation decks using modern generative AI tools.
- Accelerated creative content delivery by combining AI image generation workflows, video storyboard drafting, and prompt refinement.
